Microeconomic Theory
A Heterodox Approach

Frederic S. Lee, University of Missouri, Kansas City, USA
Tae-Hee Jo, State University of New York, Buffalo State, USA

Series: Routledge Advances in Heterodox Economics

Microeconomic Theory: A Heterodox Approach develops a heterodox economic theory that explains the economy as the social provisioning process at the micro level. Heterodox microeconomics explores the economy with a focus on its constituent parts and their reproduction and recurrence, their integration qua interdependency by non-market and market arrangements and institutions, and how the system works as a whole.
